INSTRUCTIONS TO INSPECTORS REGARDING CERTIFICATES AND REPORTS OF TESTS OF ANIMALS FOR EXPORT TO CANADA.

Attention of inspectors in charge is directed to instructions which appeared on page 74 of Service Announcements for September 16, 1912, relative to the issuance of certificates to accompany live stock to Canada. Shipments of export animals are

frequently held at the Canadian border owing to the fact that accompanying certificates are signed by bureau inspectors whose names are not recognized by the Canadian authorities. Inspectors in charge should make certain that certificates in these cases are signed only by a bureau inspector whose name has been listed with the Canadian veterinary director general. While the veterinary director general will be requested by the bureau to add the names of inspectors to such list upon recommendation of the inspector in charge, it is desired to limit the number on this list to those inspectors whose services will be actually required for this work at a given station.

The reports of tuberculin tests for Canadian export should be made on Q. D. Form 16, the first section of which is in duplicate and should accompany the animals; the duplicate copy should be forwarded to the bureau. A Q. D. Form 17 also should be issued to accompany the shipment. The inspection should be further reported to the bureau on Q. D. Form 18. In all cases of tuberculin tests applied to cattle for export shipment it is required that the owner or his agent furnish an affidavit to the effect that all animals presented for testing have never reacted to a tuberculin test and have not been injected with tuberculin within 60 days.

In the mallein testing of horse stock Q. D. Form 70 only is to be issued with stub attached. It is desired that so far as possible mallein test certificates (Q. D. Form 70) issued by registered practicing veterinarians be indorsed by the bureau inspector who has furnished the registered veterinarian with the bureau mallein required for the test.

Q. D. Forms 55 and 55A are for use in connection with the inspection of swine in accordance with section 42 of the Canadian quarantine regulations as amended by an order in council dated December 21, 1918. Q. D. Form 55 is to be issued for all swine except pure-bred, double-treated hogs. Q. D. Form 55A is intended to accompany shipments of double-treated swine. Both forms are in duplicate. One copy should accompany the shipment and the other be forwarded to the bureau for filing.

Canadian ministerial order No. 40 makes provision for a bureau certificate to accompany sheep, stating that they have been twice dipped in one of the preparations approved by the bureau. F. I. Form 24 should be issued for such sheep and a report on Q. D. Form 18 forwarded to the bureau. In ministerial order No. 40 it is provided that sheep for breeding purposes may be imported without quarantine from the States of Washington, North Dakota, Montana, Idaho, and Wyoming, provided the animals are accompanied with a certificate signed by an officer of the bureau stating that he has inspected the animals within the 30 days prior to their arrival in Canada, and has found them free from scab and necrobacillosis, and that those diseases do not exist in the county or counties in which the sheep originated. In accordance with such requirement of the Canadian regulation, a certificate, Q. D. Form 17A, has been prepared and should be issued to accompany sheep for breeding purposes when forwarded to Canada from one of the above-mentioned States.

MIXING AND TESTING OF HOG-CHOLERA VIRUS.

Hog-cholera virus intended for simultaneous inoculation shall be collected in batches of not to exceed 20,000 cubic centimeters.

Calves used in testing batches of hog-cholera virus intended for the above-named purpose shall each receive intravenously 5 cubic centimeters of the virus under test.

Previous requirements are hereby modified accordingly, effective on and after March 15, 1919.

LICENSES FOR VETERINARY BIOLOGICAL PRODUCTS.

The following changes have been made in the list of licenses for the manufacture of veterinary biological products for the year 1919 under the act of Congress of March 4, 1913 (37 Stat., 832), and the regulations made thereunder (B. A. I. Order 196):

MEMORIAL TO AGRICULTURAL EMPLOYEES WHO SERVED IN THE WAR.

A large number of Department of Agriculture employees served their country as soldiers, sailors, and marines during the war in Europe. Many have given their lives that we and the whole world may enjoy the freedom which is so precious to us all. As most of us were compelled by force of circumstances to stay at home, it is only proper and just for us to perpetuate, in an appropriate manner, the honor and memory of our fellow workers who have made the supreme sacrifice. They deserve everlasting gratitude and honor and it is believed that every one of us, without

exception, will have some personal interest in the proposal to commemorate fittingly the services of our former associates.

In recognition of these services it is proposed to erect a suitable testimonial in the beautiful grounds of the department at Washington, where it shall be a daily reminder of the debt we owe our brave colleagues. Such a memorial should be worthy in every respect of those in whose honor it is to be erected, should be in keeping with the architectural design of the department buildings, and should be in accordance with the plans of the Fine Arts Commission for the improvement of the Mall. The proposal to erect a handsome stone drinking fountain with an appropriate bronze tablet bearing the names of our fallen comrades has been approved by the Secretary and informally by the Fine Arts Commission. Congress will be asked to authorize the erection of such a memorial in the department grounds and without doubt will give its permission.

A central committee to formulate plans and perfect an organization to execute them has been appointed and will have the cooperation of a committee in each bureau and separate office of the department.

Every employee, including those in the field, will have an opportunity to take part in this memorial and will have authority to receive voluntary subscriptions from friends and relatives of those whose memory it is desired to perpetuate.

Subscription cards will be sent soon to all field stations of the bureau and the amount pledged may be made payable immediately or at a time to suit the subscriber's convenience, either in one payment or in installments. Subscriptions may be in any amount; it is for the employees to determine by the size of their contributions the character of the memorial to be erected. It is especially important that the pledges be returned at once, so that it may be shown what sum of money is to be expected. This, of course, to a great extent will govern the character of the memorial.

The chairman of the committee for this bureau is Ernest Kelly, Dairy Division, Washington, D. C., to whom all pledges and payments should be sent.

ROLL OF HONOR.

The following are the names of former bureau employees who were granted leave to enter the military service of the United States and who have since died while in that service. Their names are recorded as an addition to those published in Service and Regulatory Announcements for November, 1918, page 96, December, 1918, page 103, and January, 1919, page 5:

Ernest C. Whittle, of Massachusetts, lay inspector, appointed in the bureau August 16, 1917, entered the military service September 20, 1917, was wounded in action October 14, 1918, and died October 17, 1918.

Russell A. Stephens, of Ohio, veterinary inspector, appointed in the bureau July 1, 1904, entered the military service July 29, 1918, died of pneumonia while on foreign duty February 19, 1919.

AMENDMENTS TO ADMINISTRATIVE REGULATIONS.

(Effective Mar. 1, 1919.)

Paragraph 55 of the Administrative Regulations is hereby amended to read as follows:

55. *Removal or reduction.*—No person in the classified civil service in the department shall be removed therefrom except for such cause as will promote the efficiency of said service and for reasons given in writing, and the person whose removal is sought shall have notice of the same and of any charges preferred against him, and be furnished with a copy thereof, and also be allowed a reasonable time for personally answering the same in writing; and affidavits in support thereof; but no examination of witnesses nor any trial or hearing shall be required except in the discretion of the Secretary, and copies of charges, notice of hearing, answer, reasons for removal, and of the order

of removal shall be made a part of the records of the Office of the Secretary, as shall also the reasons for reduction in rank or compensation; and copies of the same shall be furnished to the person affected upon request and the Civil Service Commission also shall, upon request, be furnished copies of the same.

Preferment of formal charges and opportunity to answer same are not required in connection with the termination of the appointment of a probationer while still serving his probationary period. If and when, during the probationary period, after full and fair trial, the conduct or capacity of the probationary be not satisfactory to the Secretary, the probationer shall be so notified in writing, with a full statement of reasons, and this notice shall terminate his service. Action to accomplish the termination of the probationary appointment, however, must conform to the following principles:

(a) The bureau recommendations must be approved by the Secretary.

(b) The Secretary's action must be taken during the continuance of the probationary period.

(c) The appointee must be notified in writing, with a full statement of reasons, that the Secretary has approved the termination of his services.

(d) The notice required by (c) must be given after approval by the Secretary, and prior to the expiration of the probationary period.

(e) The action must be made effective as of the date upon which notice is given the probationer, or as of some later date, which must be specified in the notice, within the probationary period.

(f) Retention in the service beyond the probationary period confirms absolute appointment, and thereafter removal may be effected only as in the case of persons in the classified civil service.

The probationer may be advised by a bureau official that his services have been unsatisfactory and that it is the intention to recommend that his probationary appointment be terminated, but this advice can only be considered as preliminary and will be without effect unless the Secretary later approve the recommendation and terminate the appointment.

Section (c) of paragraph 97 of the Administrative Regulations is hereby amended to read as follows:

(c) When such days occur at the conclusion of a period of annual or sick leave they will not be counted as leave if the employee returns to duty on the day following the Sunday or holiday; but they will be counted as leave without pay if the employee, instead of returning to duty on the day following the Sunday or holiday, immediately entered upon a period of leave without pay.

Sundays or holidays will also be counted as leave without pay at the conclusion of an indefinite period of leave without pay, or absence without permission charged as leave without pay, as under such circumstances an employee can not be restored to a pay status prior to his actual return to duty.

If, however, leave without pay granted for a definite period expires with the day before a Sunday or holiday, the Sunday or holiday will not be charged as leave if the employee returns to duty on the day following the Sunday or holiday.

D. F. HOUSTON,
Secretary.

USE OF TRANSPORTATION REQUESTS IN CONNECTION WITH SLEEPING AND PARLOR-CAR ACCOMMODATIONS.

Attention is invited to the following provisions of a circular issued under date of March 3, 1919, by the United States Railroad Administration, outlining the procedure which will obtain on and after April 1, 1919, in connection with the use of Government transportation requests to secure sleeping and parlor-car accommodations:

Effective April 1, 1919, the practice of issuing sleeping and parlor-car tickets in exchange for Government transportation requests and State orders calling for accommodations to be furnished by sleeping and parlor-car lines will be discontinued, and in lieu thereof the following will apply:

The transportation requests may be presented to ticket agents, and the accommodations called for by the requests when available will be reserved.

The ticket agent will indicate on the request, in space provided for showing the form and number of ticket, the specific space to be furnished: that is, berth or seat number, car number, train time, and, unless shown on request, the name of the initial road, proper notation to be made by the ticket agent on his office diagram, and the request returned to the holder for surrender to conductor.

If, after reservation has been made, trip is abandoned, the ticket agent should be notified so that the space can be released. It will be permissible, if the request is returned to the ticket agent before departure of the train, for him to erase the reservation from the diagram and from request and new reservation, if desired, made.

All transportation requests must be lifted by the initial sleeping or parlor-car conductor, and transfer tickets issued where necessary.

SUNDAY AND HOLIDAY LEAVE.

Particular attention is invited to the amended paragraph 97-c of the Administrative Regulations of this department, revised to August 1, 1918, appearing elsewhere in this issue of Service and Regulatory Announcements, and reading as follows:

(c) When such days (Sundays or holidays) occur at the conclusion of a period of annual or sick leave they will not be counted as leave if the employee returns to duty on the day following the Sunday or holiday; but they will be counted as leave without pay if the employee, instead of returning to duty on the day following the Sunday or holiday, immediately enters upon a period of leave without pay.

Sundays or holidays will also be counted as leave without pay at the conclusion of an indefinite period of leave without pay, or absence without permission charged as leave without pay, as under such circumstances an employee can not be restored to a pay status prior to his actual return to duty.

If, however, leave without pay granted for a definite period expires with the day before a Sunday or holiday, the Sunday or holiday will not be charged as leave if the employee returns to duty on the day following the Sunday or holiday.

It will be seen that under this amendment when an employee has returned to duty on a day following a Sunday or legal holiday from absence without pay he may receive salary only for the Sunday or holiday when the absence was "leave without pay" granted in advance for a definite period to expire with the day preceding the Sunday or holiday.

When an employee is about to exhaust all his annual leave and, for good and sufficient reasons, desires leave without pay at the termination of his annual leave, or in the case of sick leave if he is forced by continued illness to take leave without pay, he or his physician, before going on leave without pay, may estimate when he will be able to return to duty and make application for leave without pay for a definite period ending with a day previous to a Sunday or a holiday, and if granted may receive pay for that Sunday or holiday provided he returns to duty the day following. Thus it becomes necessary that all applications covering leave without pay in such cases, also time reports T-40 and T-40a, must indicate whether the leave was granted in advance and whether for a "definite" or "indefinite" period.

To prevent unnecessary correspondence and the loss of pay to employees for Sundays and holidays to which they may be entitled, strict compliance with these instructions is urged.

AMENDMENT TO CIVIL-SERVICE RULES REGARDING REINSTATEMENTS.

Attention is directed to the following Executive order, dated February 7, 1919, amending the Civil-Service rules:

Section 1 of Civil-Service Rule XI is amended to read as follows:

1. A person separated without delinquency or misconduct from a competitive position, or from a position which he entered by transfer or promotion from a competitive position, may be reinstated in the department or office in which he formerly served, upon certificate of the Commission, subject to the following limitations:

(a) The separation must have occurred within one year next preceding the date of the requisition of the nominating or appointing officer for such certificate; but this limitation shall not apply to a person who served in the Civil War or the War with Spain and was honorably discharged, to an Army nurse of either war or the war with Germany, or to the widow of a person who served in any of these wars and was honorably discharged.

(b) No person may be reinstated to a position requiring an examination different from that required for the position from which he was separated without passing an appropriate examination.

This amendment is recommended by the Civil Service Commission to make uniform the provisions applying to Army nurses and widows of persons who served in any war and were honorably discharged.

PUBLICATIONS IN MARCH.

[The bureau keeps no mailing list for sending publications to individual employees, but publications are sent in bulk to officers in charge for distribution to members of their forces. The number of copies sent varies with the subject or nature of the publications and the number and class of employees. Officers in charge will use their judgment and distribute publication to best advantage. So far as possible additional copies will be furnished on request.]
